# YOUR PARTNER FOR RENEWABLE ENERGY WORLDWIDE

*Invest in Future*

# *Locate Resources, Power efficiently used*

**New Energies  
with entitlements to benefits and returns**

With high-quality wind turbines, high-yielding solar parks, productive biogas plants and hydropower plants we want to make a decisive contribution to reversing global climate change and secure for the lasting protection of our power supply.

We ensure the use of quality products that meet the highest standards and are equipped with the relevant certificates. Long-term guarantees of the manufacturers are also an important criterion in the selection as well as sustainability.

# *Know which Way the wind is blowing...*

Since 1994 on the market and  
active in all areas of renewable energy.  
Complete solutions for projects in Europe.
